

Prepaid Debit Products

If you are a Champions® sponsor who does not have a checking or savings account or a credit or debit card account to use for online payments, you might be wondering how you will pay through our new and exciting Online Account Management system!

Our Online Account Management system will accommodate your needs too! Currently, the U.S. Banking System will not allow you to convert a Money Order to an electronic payment. However, there are a vast amount of Prepaid Debit Card options available to you at many convenient retail locations in your community.

The procedure to obtain one of these prepaid debit products instead of a Money Order is as follows:

To Obtain a Prepaid Debit Card at a retail location near you:

1. Visit a local retail location such as a discount, pharmacy, grocery or convenience store. Some popular examples of these retail locations include Walmart, Target, CVS Pharmacy, and Safeway. Almost any location that distributes Money Orders also offers Visa or MasterCard Prepaid Debit Cards for purchase.
2. Submit your application for the Prepaid Debit product of your choice. These products do not require a credit check or any type of significant background information.
3. Deposit cash at the retail location to be put onto your Debit Card.
4. Proceed to the KLC School Partnerships' new Online Account Management system and input the 16-digit Visa or MasterCard number, as well as the other requested information and submit for payment!

To Obtain a Prepaid Debit Card online:

1. Go to www.google.com or your preferred search engine and type in "Prepaid Debit Card" to review a list of great debit card products. Some recommended products that offer low fees and convenience include Green Dot and All-Access.
2. Review the features of these cards, as the different cards have varying fees and features. For example, the All-Access card offers a savings account. Green Dot offers to waive or lower fees if you sign-up to have your payroll direct deposited to the card or deposit a certain dollar amount each time you replenish. Other cards might offer mobile banking tools such as transferring from the Prepaid Debit Card to another card attached to the account, or text-message capabilities for balance information.
3. Once you have selected the card program that fits you best with a Visa or MasterCard logo, complete the application and watch the mail for your card to arrive!

Once you have received your Prepaid Debit Card you will be able to replenish the card by going to any of the retail locations which support your card (e.g. Green Dot will outline the places which support them such as Walmart). You should only have to order a Prepaid Debit Card once and use it over and over again as you replenish the balance with cash or your payroll direct deposit. You do not need to reorder a card for each transaction.

If you have questions about obtaining a Prepaid Debit Card product do not hesitate to visit any major discount, grocery, convenience, or pharmacy retailer for more information. You may also call our Customer Support Team at 1-800-246-2154.
