

Colorgories

Instructions

***Gather your friends or family
for a game of Colorgories!***

- Print one copy of the Colorgories sheet (next page) for each person playing.
- Grab pens or pencils and set a timer for two minutes.
- During that **two minutes** each person writes down a maximum of **10 items for each color**. Duplicate answers among players get crossed out, so originality and creativity count!
- After the timer stops, each person reads their list. *Any answer that is duplicated by another player is crossed out by all players that have it.*
- Once all players have read their lists, **players get 1 point** for each item they had listed that no one else had.

The player with the most points wins!
